Product advantages

① Unlike table top models, wall mounts can't get knocked over and broken. They also can't be pushed out of the way by a customer or sales clerk where the function of the unit is lost or obscured. Being mounted on the wall, they are always in place to do the job they were intended to do.

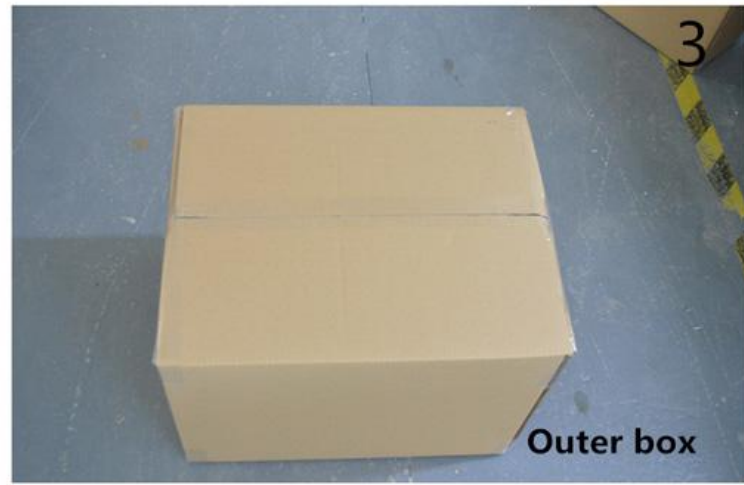

② The wall-mount version of brochure holders comes in an elaborate range of sizes. Not all brochures come in the same size. Four-inch wide models fit the standard tri fold type of brochure but even in that class range, you can pick from a range of sizes that hold a few brochures or larger quantities.
